PROFILE

Analytics professional specialising in Power BI, SQL, and Python to engineer real-time KPI dashboards, automated ETL processes, and cloud-optimised data pipelines in healthcare and consulting sectors. Excel at distilling complex datasets into intuitive visualisations and insights that streamline operations, enhance forecasting accuracy, and empower cross-functional teams. Proficient in Power Query, BigQuery, PostgreSQL, and advanced analytics tools; dedicated to delivering scalable solutions with a focus on precision, efficiency, and business alignment.

EDUCATION

UBC Sauder School of Business, Vancouver, BC

August 2024 – September 2025

Master of Business Analytics

Coursework: Statistics, Optimization, Machine Learning, Data Visualization, Business Analytics Programming, Data Management for Business Analytics, Process Fundamentals, Forecasting, Supply Chain Management

BITS Pilani K K Birla Goa Campus, Goa, India

August 2017 – May 2022

Dual Degree Program (B.E. Hons in Mechanical

Engineering, M.Sc. in Chemistry, Minor in Finance)

Coursework: Computer Programming, Finance, Statistics, Engineering Optimisation, Numerical Analysis

EXPERIENCE

Vancouver Coastal Health, Vancouver, Canada

May 2025- Present

Data Analyst (Hybrid)

- Automated Excel workflows via VBA and Power Query, slashing processing time by 30% and eliminating multi-week backlogs for Corporate Finance.
- Led cloud migration for Corporate Finance and Financial Planning teams, transferring files to scalable platforms and securing Director buy-in with ROI-driven presentations.
- Designed KPI library in Power BI, driving real-time funding decisions and reducing budget deviations for FP&A.
- Engineered onboarding processes and documentation, expediting new hire integration and ensuring seamless operational alignment across departments.
- Delivered hands-on seminars on Excel, Power BI, and SQL to 25+ staff members, boosting team analytics skills and enabling more informed stakeholder decisions.

Viscadia, Gurugram, India

February 2024 – July 2024

Senior Associate (Hybrid)

- Boosted forecast accuracy by 15% through an end-to-end business improvement initiative, aligning cross-functional stakeholders on customer insights and workflow optimisations.
- Enhanced strategic decision-making across departments by developing interactive BI dashboards for KPI monitoring and process refinements.
- Improved cross-functional KPIs 12% via advanced analytics and workflow redesign with sales, operations, and finance.
- Co-created analytics-driven pitch tools, securing 3 new client contracts worth \$1.2M in pipeline.
- Mentored 5 juniors, authored firm-wide forecasting guides, and earned Q2 2024 Best Team Player Award.

ZS Associates, Gurugram, India

June 2022 – January 2024

Business Technology Associate (Hybrid)

- Developed scalable Python/SQL forecasting models with automated validation, reducing manual checks 40% and accelerating product releases.
- Wrote custom SQL data quality scripts in BigQuery, enabling self-service analytics and cutting query response from 3 days to <1 hour.
- Developed and automated VBA/Python modules for what-if and sensitivity analyses, as well as Monte Carlo simulations, saving 25% on project timelines and model development across multiple client projects.
- Designed and implemented IT-aligned data models, empowering data-driven decision-making and streamlining operations.
- Conducted competitive benchmark for French manufacturer vs. 10 peers; delivered €3M transformation roadmap.
- Delivered ~€8M in post-merger savings for an Indian retailer by orchestrating 10+ teams and 650+ resources in outsourcing enhancements.

TECHNICAL SKILLS

Languages: Python, SQL, PostgreSQL, R, MQL, CQL, BigQuery

Libraries: Pandas, NumPy, Seaborn, Matplotlib, Gurobi, Scikit-learn

Tools: Excel, Power BI, Tableau, PostgreSQL, MySQL, SQLite, Google Data Studio, Jira, Confluence, AWS, GCP
